

## Samsung Replacement Fridge Filter Cartridge

### Suit Models:

DA29-00003G, DA29-00003A-B, DA29-00003A, TADA29-00003B- DA29-00003B, DA61-00159, DA61-00159A, DA61-00159A-B, DA29-00003, DA2900003A, TADA29-0003A

<b>Flow Rate:</b>	.5 gpm/1.9 lpm
<b>Operating Temperature:</b>	33 - 100°F (0.6°C - 38°C)
<b>Min Operating Pressure:</b>	30 psi - (207 kPa)
<b>Max Operating Pressure:</b>	100 psi - (689 kPa)
<b>Life:</b>	6 months or 300 gallons (1,136 liters)

### Detailed Description

This is a quality USA made fridge filter and will replace most internal Samsung fridge filters (see short description above).

We cannot stress how important it is to you and your family's health to have a quality fridge filter such as this one rather than using a cheap Chinese copycat. The Chinese versions of this filter have weaker plastic and coal based carbon that has the potential to rust and release heavy, poisonous metals back into the water. Water Sentinel fridge filters however are **coconut carbon** which is organic and cannot create this problem.

This Water Sentinel™ refrigerator water filter contains a compressed carbon block which provides tremendous capacity to remove and/or reduce impurities and sediment that may be present in your drinking water. The carbon block has millions of active sites on its surface and within the structure which can absorb impurities like a sponge, and can adsorb and hold other types of impurities on its surface like a magnet. Additionally, this filter can catalytically breakdown other impurities very similar to the way a catalytic converter works in your automobile. These processes ensure that you are getting the cleanest and best tasting water possible.

#### **FILTER FEATURES:**

- Economical
- Delivers clean, clear water that looks and tastes great
- Will remove or reduce Chlorine, Tastes and Odours that may be present in your drinking water
- Designed to provide up to six months (approx.) of life
- Does not remove minerals which may be beneficial to health
- Free Lubricant Seal for O-Rings

The only refrigerator filter to include an accompanying tube of special o-ring lubricant to ensure a leak-free seal!

This filter should not be used with water that is microbiologically unsafe or of unknown quality, without adequate disinfection before and/or after the filter.

This filter has been tested by the manufacturer against ANSI/NSF Standard 42 for the reduction of Chlorine, Tastes and Odours.
